- Permittee is responsible for the accuracy and legibility of this permit.
- Permittee is subject to all provisions stipulated by rules and law; permit is subject to revocation upon noncompliance.
- The granting of a permit does not waive any liability or responsibility of the permittee which might accrue for any property damage, including damage to the highways, or for personal injuries.

Permit travel is prohibited if any of the following adverse or inclement weather conditions exist:

- \* Winds cause a hazard to movement.
- \* Visibility is less than one-half mile.
- \* Rain, sleet or snow.
- \* Highway surfaces are slippery due to ice, snow, packed snow, slush or frost.
- \* Debris from an accident, natural disaster, or emergency on the highway.

Wet pavement, light drizzle, or wind less than 25 miles per hour are not considered inclement weather for purposes of permit movement. If adverse weather or road conditions are encountered during operation, the permitted vehicle must proceed to the next available safe place off the roadway and park until conditions improve. Nebraska State patrol Officers or local law enforcement officers or Nebraska Department of Transportation

personnel may further restrict or prohibit operation of permitted vehicles during periods, when, in their judgment, weather or other hazardous conditions make continued operation unsafe.

- Travel is allowed from 30 minutes before sunrise to 30 minutes after sunset, 7 days a week, unless otherwise stated on this permit.
- A local permit may be required for moves on county or city roads. Permittee is responsible for contacting local authorities.

Permittee must bypass any and all clearances that are less than the above listed dimensions. The permittee shall assume the risk of loss to the vehicle or its load and shall be liable for any damages that result to overhead obstructions from operation of a vehicle exceeding 12 foot 6 inches in height.

60-6,288(1) Any person moving a building or an object that, in combination with the transporting vehicle, is over fifteen feet six inches high or wider than the roadway on a county or township road shall notify the local authority and the electric utility responsible for the infrastructure, including poles, wires, substations, and underground residential distribution cable boxes adjacent to or crossing the roadway along the route over which such building or object is being transported. Notification shall be made at least ten days prior to the move. Notification shall specifically describe the transporting vehicle, the width, length, height, and weight of the building or object to be moved, the route to be used, and the date and hours during which the building or object will be transported. Complying with the notification requirement of this section does not exempt the person from complying with any other federal, state, or local authority permit or notification requirements.

(2) Proof of the notification required under subsection (1) of this section must be carried by any person moving a building or an object as described in this section.

(3) Any person who fails to comply with the notification requirements of this section shall be guilty of a Class II misdemeanor.

60-6,299 (1) Hauler is not authorized to manipulate overhead high voltage lines or conductors or other such components, including electric utility poles, the applicant shall be guilty of a Class II misdemeanor for any violation of this section or of the notification requirements of section 60-6,288.01.

- Under no circumstances shall permittee bypass any scale site that is open.
