Axle Information and Provisions On Following Pages

By requesting and signing for this permit you are accepting and agreeing to all the terms and conditions with the permitting process, and that by applying for a permit, the holder certifies that he/she is familiar with all Federal and New Hampshire traffic, motor vehicle, and other laws, requirements, and rules governing a move including, but not limited to, time, date, and location, as well as size of load, and will be in full compliance during movement. The applicant agrees that all dimensions and weights applied for are true and correct and that a permit does not allow the permit holder to cross any load posted bridges without prior review, as well as exceed manufacturers' Gross Combined Weight Rating (GCWR) or Gross Vehicle Weight Rating (GVWR), axle capacities, or tire capacities on any portion of the permitted equipment. If the applicant crosses any load posted bridges without prior review or the load on any portion of the permitted equipment exceeds any of these manufacturers' criteria, the permit shall be null and void. The applicant agrees to move at own risk and assume all responsibility for injury to persons or damage to public or private property caused directly or indirectly by the transportation of the vehicle or load under the permit.

Axle Information – From Front to Rear

Axle Number	Axle Weight	Axle Center to Center Spacing	Mfg. Max Weight Rating	Tire Capacity	Tires Per Axle	Total Axle Tire Capacity
1	13500	21' 6"	15000	7500	2	15000
2	18750	4' 6"	25000	6250	4	25000
3	18750	38' 0"	25000	6250	4	25000
4	18500	4' 6"	25000	6250	4	25000
5	18500		25000	6250	4	25000

By requesting and signing for this permit you are accepting and agreeing to all the terms and conditions with the permitting process, and that by applying for a permit, the holder certifies that he/she is familiar with all Federal and New Hampshire traffic, motor vehicle, and other laws, requirements, and rules governing a move including, but not limited to, time, date, and location, as well as size of load, and will be in full compliance during movement. Special Attention

- 5 - GEN: All truck drivers must complete New Hampshire Department of Safety form 'Oversize/Overweight Checklist for each Permitted Load' prior to driving on New Hampshire roadways for any travel authorized by a New Hampshire Department of Transportation Oversize/Overweight permit.
- 10 - GEN: Listed provisions are in consideration of your vehicle and load configuration but are not comprehensive. Permittee must comply with all applicable federal, state, and local laws and regulations governing Oversize and Overweight Vehicle Permits.
- 40 - OS: Oversize loads shall use extreme right lane at all New Hampshire toll plaza locations.
- 110 - OS: Permit vehicles may travel on designated routes during daylight from 30 minutes prior to sunrise until 30 minutes after sunset.
- 120 - OS: Permit travel is authorized during approved hours on Monday through Friday. Permit travel is not authorized on Saturdays or Sundays or Holidays.

Provisions

- 20 - GEN: This permit shall be carried in the vehicle at the time of the move, and shall have the same available for inspection by any police officer.
- 30 - GEN: This permit authorizes travel only on those state maintained roads and bridges over which the Department of Transportation has jurisdiction. If on other than state road, the applicant shall obtain permission from the selectmen, council, trustees or other appropriate officials with jurisdiction over the road.
- 115 - GEN: No travel is allowed when road conditions, weather conditions, or visibility make traveling hazardous to the operator or to the driving public. Vehicles which are underway when inclement weather occurs must exit the road at the first available location and park in a safe place until the weather clears, or until the road conditions improve.
- 135 - GEN: When traffic following a permit move has accumulated to 7 or more vehicles, the permit load and escorts shall yield the right-of-way for these vehicles to pass at the nearest, accessible, safe location.
- 180 - OS: Signs, Markings, and Radio Communication Equipment for Oversized Loads. 2 warning signs reading OVERSIZE LOAD shall be evidence during all movements and placed on front and rear of haul vehicle and load. Warning signs shall be at least 7 feet wide and 18" high with yellow background and black lettering. Letters should be at least 10 inches high with a 1.4 inch brush stroke. The hauling vehicle shall have an operating, top-mounted, flashing or strobe amber light visible for 1,000 feet in all directions. Non-police escort vehicles shall be a motor vehicle the size of a compact car or larger, registered and inspected, with: a operating, top-mounted, flashing or strobe amber light visible for 1,000 feet in all directions; a 2-way radio using the same frequency as the permitted vehicle it is escorting, allowing contact with the permitted vehicle and all escort vehicles, including state police, at all times; 2 warning signs displayed during the move on the front and back of the vehicle or one sign above the roofline where it is visible from the front and rear displaying a legend reading OVERSIZE LOAD in black letters not less than 10 inches high of a 1.4-inch brush stroke on a yellow background. The sign shall be made of durable material unaffected by moisture and the shape of the warning sign shall be varied to fit the escort vehicle, with a minimum size of 5 feet 0 inches wide and 12 inches high.
- 185 - OS: Any motor vehicle having a load or vehicle component which extends beyond the sides more than 4 inches or more than 4 feet beyond the rear shall have the extremities of the load marked with 4-6 red flags, not less than 18 inches square.

By requesting and signing for this permit you are accepting and agreeing to all the terms and conditions with the permitting process, and that by applying for a permit, the holder certifies that he/she is familiar with all Federal and New Hampshire traffic, motor vehicle, and other laws, requirements, and rules governing a move including, but not limited to, time, date, and location, as well as size of load, and will be in full compliance during movement. The applicant agrees that all dimensions and weights applied for are true and correct and that a permit does not allow the permit holder to cross any load posted bridges without prior review, as well as exceed manufacturers' Gross Combined Weight Rating (GCWR) or Gross Vehicle Weight Rating (GVWR), axle capacities, or tire capacities on any portion of the permitted equipment. If the applicant crosses any load posted bridges without prior review or the load on any portion of the permitted equipment exceeds any of these manufacturers' criteria, the permit shall be null and void. The applicant agrees to move at own risk and assume all responsibility for injury to persons or damage to public or private property caused directly or indirectly by the transportation of the vehicle or load under the permit.
